BIOGRAPHY

Born and raised in South Florida, Kara has always had a passion for the arts. Her background as an artistic gymnast and dancer made an easy transition as she began studying circus arts. While she has mastered the art of aerial tissue, she also has years of experience on many different apparatuses including lyra, chains, and pole. In addition, she has worked as a flyer doing duo rope, duo trapeze, and hand to hand. She has had the opportunity to perform at numerous events and shows throughout the world. In addition to performing, she loves helping others grow in their aerial journey and has been teaching for over 6 years. She travels between Vegas and Montreal, where she has the opportunity to train with world class coaches from Ecole Nationale de Cirque and continues to perfect her craft to share with the world.
